

## When Others Don't Believe

Not everyone believes in God and Jesus. Some people don't believe that God created the world and people. Some don't believe in the Bible's rules of right and wrong. Some people think there isn't any God. They say that people who believe in God are foolish.

Read this story about an Assyrian army general who laughed at the idea that God could save the Jews from the Assyrian army. It was hard for Hezekiah and the Jews to be laughed at. But who turned out to be right?

If anyone makes fun of you because you believe in God, ask a grown-up these questions. Why do people laugh at us for believing in God? Have you ever been laughed at for something you believe? How did you feel? What is the best thing to do when someone laughs at our faith in God? When will the people who make fun of God stop laughing?
