

God the Creator's Greatness

In Job 39 God reminds Job of some of the wonders he has created. Make a list of the birds and animals God speaks about.

See if you can find pictures of some of these birds and animals in magazines or online. Cut them out and paste them on a large sheet of cardboard or save them to a file on your computer. Ask your mom or dad where to put your collection, to remind your whole family that God is the great Creator (ideas: screensaver, create your own calendar, above the dog or cat dish).

Live It!

Job 39:1-30
